LONDON:
PRINTED BY WILLIAM CLOWES AND SONS, LIMITED,
STAMFORD STREET AND CHARING CROSS.

Gift of
Dr. C. A. Kofoid

THE first edition of this List of Bibliographical Works was drawn up in the year 1880 by the late Mr. G. W. Porter, Senior Assistant Keeper in the Department of Printed Books.

The work has now been revised, and some additions have been made, by Mr. G. K. Fortescue, Superintendent of the Reading Room. In this edition "shelf-marks" have been added to the original press-marks of all the works placed in the Bibliographical Cases.

PREFACE TO THE FIRST EDITION. 1880.

THE following list has been drawn up to facilitate the use of the collection of Special Bibliographies, Classed Catalogues, and Indexes recently placed in the Reading Room. It has been thought that such a collection might be useful to readers by indicating the works published and available for consultation in the various fields of study and research, and that it might in some degree supply the want of a classified catalogue of the Museum Library, with the further advantage of pointing out works existing elsewhere, as well as those to be found in the Museum.

In selecting the books for this purpose, it has been the aim to represent every subject, as far as space in the Reading Room admits of it. But on many topics no satisfactory bibliographical guide exists: in other cases the works existing are much behind the literature of the present time, or have never been completed. Some books will therefore be found included which only remain until they can be replaced by more efficient works.

It will be seen that the various bibliographical works standing in other parts of the Reading Room have been included with those in the extra cases in this list, for the sake of systematic arrangement and as a convenience to the readers.

The present list is chiefly confined to Bibliographies, but it may perhaps be as well to point out that much useful bibliographical assistance may be obtained from the extensive collection of biographies and literary histories in the Reading Room. How numerous these are will be seen by referring to the Index of Subjects in the published "List of

the Books of Reference" drawn up for the use of readers by Mr. Rye.*

In arranging the bibliographies in their cases, the subjects have as far as possible been made to correspond in position with those in the Library of Reference: thus the theological bibliographies will be found opposite to Theology, and the historical opposite to History.

For press-mark the extra cases are distinguished by the letters **BB.**—an abbreviation of the word bibliographies—in combination with the distinctive letters of the tables against which they are placed: thus the press-mark **BB. A.** shows that the work to which it refers will be found in the bibliographical case standing at the end of the **A** table.

G. W. Porter.

* List of the Books of Reference in the Reading Room of the British Museum. Third edition, revised. 1889.
